BWG BUSINESS SPOTLIGHT: VINS PLASTICS

Starting in a small rental unit more than four decades ago, BWG success story VINS Plastics continues to enhance its well-deserved reputation for high quality plastic packaging products that exceed client expectations. Now in a new 100,000 square foot manufacturing facility, VINS employs approximately 85 highly skilled employees making high-end customized plastic flat stock and pouches for customers throughout southern Ontario, as well as other parts of Canada and increasingly into the northern U.S. Quality of product and unrivaled turnaround times has allowed VINS to amass a vibrant and growing customer base, primarily within the food, medical supply and pharmaceutical field – sectors that generally require unique packaging solutions at smaller quantities.

The labour market in and around BWG continues to supply qualified employees, easy access to markets and clients due to the closeness of Highway 400 and the new interchanges, are reasons why VINS continues to see BWG as their home and the place to grow and prosper.

**“WE CHOSE TO STAY IN
BRADFORD BECAUSE OF ITS
ACCESSIBILITY, ESPECIALLY
HIGHWAY 400, BECAUSE WE’RE
ABLE TO ATTRACT EMPLOYEES
WHO LIVE CLOSE BY, AND
BECAUSE THE REAL ESTATE
PRICES CONTINUE TO BE
AFFORDABLE.”**
**– MIRSADA VINS, VP OF
BUSINESS ADMINISTRATION**

A LOCATION BUILT ON OPPORTUNITY.

Build, work and grow in a location built on opportunity. BWG offers manufacturers easy access to Highway 400 and Ontario's transportation network. Lots of varying sizes, many with highway frontage are available now.
